### FDLLC partners with CCFD, Port of CC to coordinate project rescue plans

On Tuesday, June 27, FDLLC teamed up with the Corpus Christi Fire Department and the Port of Corpus Christi to coordinate project rescue plans. Team members from all three entities shared internal emergency rescue plans and worked together to identify any safety gaps or potential risks. A big thank you to our project partners for helping to ensure safety remains the number one priority on the project. In other FDLLC safety news, monthly safety meetings are now being held at various project job sites. Project safety officials are traveling to various sites in the field to ensure all employees receive the most up-to-date, critical safety information and training. July trainings were held at the Pre-Cast Yard in Robstown, the FDLLC Warehouse located on Port Avenue, and the Concrete Batch Plant on Flato Road. BE the BRIDGE to SAFETY!

### UPCOMING EVENTS:

#### Community Connections

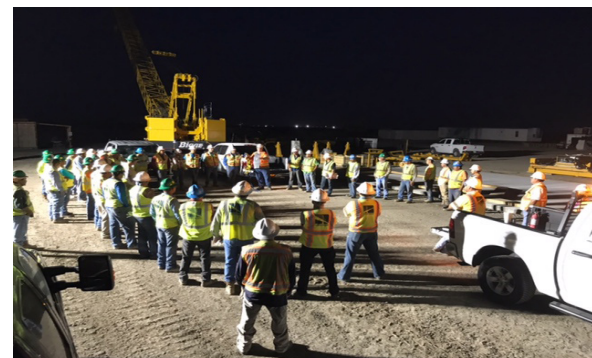

August 3:  
Community Advisory Board Mtg.  
6 p.m.

August 8:  
HBP Presentation  
AEP
