Hispanic Women's Network of CC  
6 p.m.

Flatiron/Dragados, LLC hosts final Design Charette

Representatives with the Harbor Bridge Project hosted a final design charette that was held on May 23. More than 200 invites were sent to a cross-section of the community, which included elected officials, area city and county leaders, business groups and neighborhood representatives. The interactive workshop included open discussions on a variety of project design elements, in which participants had the opportunity to share ideas and provide preferences for the aesthetic features of the new signature bridge. A first design charette was held on September 22, 2016, and focused on bridge and pedestrian design features. Design Charette #2 provided an opportunity for attendees to review feedback from the previous charette and assist with the development of final design preferences.

Community representatives were on hand to assist with the development of final design preferences at the final Design Charette.

A preview of the Aesthetic Lighting features were on display at the May 23 Design Charette.

FDLLC Public Information Coordinator, Lorette Williams presents an update to the Community Advisory Board (CAB) members at their May meeting held at the Oveal Williams Senior Center.
